A Letter to Us, One Year From Now

Tonight each of you writes a letter to the two of you, to be opened one year from today. Write about what you hope the year ahead will bring, what you want to remember about this moment, and what you would like to tell the couple you will be by then.

Write apart, and don't read each other's letters. When both are written, fold them together, seal them in the envelope on the last page, and write the date on the front. Then put it somewhere you will both remember.

Print pages 2 and 3 single-sided. Print the envelope at 100% ("actual size"), cut along the solid line, fold back along the dashed lines, and glue the side and bottom flaps.
